National Symposium on Preventive Psychiatry

11th September 2016
Conference Hall, AIIMS, New Delhi

DEPARTMENT OF PSYCHIATRY
ALL INDIA INSTITUTE OF MEDICAL SCIENCES
NEW DELHI-110029
Introduction

Preventive psychiatry has come a long way from the era of secondary and tertiary psychosocial interventions, aiming to limit disease progression and disability. With the contribution from neurobiology, psychopharmacology, and psychiatric genetics, the focus of preventive psychiatry has now shifted to the primary prevention of mental disorders, aiming to stop disease occurrence. The field of primary prevention is still in a nascent stage, and is wide open for exploration. The time to begin, therefore, is now!

In an effort the further the above mentioned cause, Department of Psychiatry, All India Institute of Medical Sciences, New Delhi, is hosting the "National Symposium on Preventive Psychiatry" at Conference Hall, AIIMS, New Delhi.

The Symposium is themed "Prevention of mental disorders: a tangible possibility", and will cover a broad range of topics including, amongst others, a workshop on the scope of preventive psychiatry in daily practice and in low resource settings, deliberations on the role of preventive psychiatry in medical curriculum, and a panel discussion on the strategies for preventive psychiatry in severe mental disorders, substance use disorders, suicide prevention and across all age groups.

This symposium is sponsored by the National Academy of Medical Sciences (India).

Everybody is cordially invited to participate in the event
Organizing Committee

Patron
Prof (Dr) Sudhir K Khandelwal

Advisors
Prof (Dr) Pratap Sharan
